

COVID-19 Procedures and Policies

First and foremost, our main concern is the health and safety of our employees as well as our customers. We are very pleased that the State of NC is allowing golf courses to remain open so our patrons can continue to enjoy the outdoors and the wonderful game of golf. The following policies and procedures will help us maintain a safe environment for everyone. These policies are not merely suggestions, they are mandatory policies and procedures that Wil-Mar Golf Club will strictly adhere to.

On Course:

All water coolers have been removed from the course. All ball washers are covered and currently unavailable for use. Rakes have also been removed from bunkers. Cups have been set upside down to keep the ball high up and easily reachable. Please leave the flag stick in at all times when putting. Please practice social distancing at all times while on the course and in the parking lot.

Carts and Walking:

While we currently encourage golfers to **WALK**, carts will still be provided when they are available. To help ensure more individual customers have access to carts, same household family members or trusted partners are encouraged to share a golf cart. We will be cleaning and sanitizing carts after every use, every morning, and every night. As a suggestion that other courses in the Triangle have mentioned, if you have to share a cart with someone, try walking a hole and then riding a hole, alternating who drives the golf cart every other hole.

Social Distancing:

Adequate social distancing is a must when checking in at the pro-shop. No more than 4 people will be allowed in the pro shop at one time. If there is an item from the pro shop you would like to purchase, please let someone behind the counter know and we will gladly assist you. For consideration of other customers and Wil-Mar employees, upon completion of your round, please dispose of your own cart trash and depart the facility as soon as possible. There can be no congregating on the patio or anywhere else around the pro shop. **Everyone must practice safe social distancing at all times while at our facility.**

Payments and Tee Times:

Payment for golf over the phone is allowed. The starter will be given your ticket for play if you do not wish to come inside to pay. **Apple Pay, Google Pay, and other contactless payment systems are highly recommended when paying inside.** (GolfNow will soon be able to take ONLINE payments when booking online.) We are asking everyone to call and make a tee time before coming out to play. By doing this it allows for us to forecast usage and allow as many people as possible to enjoy the course.

Hours:

The last cart of the day will be given out at 5:30PM, with no exceptions. This is to make sure our cart staff has ample time to sanitize all returning carts for customer use the next day. Walking is still permitted after 5:30PM, with the pro shop closing promptly at 6:30PM. Carts **MUST** be returned by 7:30PM. **NO EXCEPTIONS**

Range:

The range will continue to operate from 7am to 6pm daily. Carts will **NOT** be allowed to the range at any time. We are using mats only and are only allowing 8 people on the range at a time to keep natural social distancing in place. Please only use the mats to hit golf balls on the range. **Please use your own golf balls when using the chipping green and putting greens. Please do not use range balls on any practice greens.**

Bogeys Bistro:

Our food and beverage operation, **Bogeys Bistro**, will continue to offer takeout and delivery options. Drinks and snacks are still available as well. **They will be open daily from 8am - 5pm.** When playing golf please place your order on hole #8 to ensure a timely pickup and turn to the back side. Access to the golf shop will be blocked off at 6:30pm promptly each night.
